Typestyle Information

Typestyles say a lot about your business. Choose a mainline typestyle that will be representative of the business or service you provide. The mainline will set the tone of the card. Also, keep in mind the body copy needs to be **clear** and **readable**.

Mainline: The most recognized line on the card. Gives the name of your business or the most important thing you want to say.

Body Copy: Tells the what, where, who, how, and when of your business

Typestyles can be grouped into classes.

Serif

A straight or curved line coming off the upper or lower portion of a letter. Serif typestyles can be used for the mainline and the body copy.

San Serif

A letter or typeface with no serif. Because of their clarity, san serif typestyles are very good for body copy.

Script

Any style of letters that resemble handwriting. Script typestyles are usually used for the mainline type only. They should **NEVER** be set in all capital letters.
